Experience

Apollo GraphQL   **Sr. Staff Product Designer** • 2020 – 2021

Led product design for developer tooling in Apollo Studio, a collaboration platform for GraphQL API maintainers and consumers. Embedded on an engineering team as a PDE triad lead responsible for shaping strategy and execution for the Studio user experience.

Netlify   **Head of Design** • 2018

Led the Design Department at Netlify. Partnered with executive leadership and department heads on product strategy, IC product and marketing design for key projects, and hiring.

GitHub   **Product Design Lead** • 2013 – 2018

Worked with several long-running teams throughout the organization as the embedded product lead to help bring new features to life for the millions of developers who use GitHub every day. Responsible for product strategy, user research, product design process, shipping production code to GitHub.com (HTML/CSS/Ruby/Rails), and launch coordination.

Worked on core product features such as Code Review Requests, Code Owners, Protected Branches, Integrations Directory, Package Registry, and the Status Checks API.

AppendTo   **Visual Design Engineer** • 2012 – 2013

Front-end developer focused on implementing designs for client projects such as the responsive redesign of TIME.com, Bloomberg.com and others. Tech Lead on several projects.

CURE International   **Principal Designer** • 2011 – 2012

Responsible for design across all mediums, including print, web, UX, and brand. Hired and managed contract designers. UX and Front-end development for CURE.org (HTML/CSS).

Web & Graphic Designer • 2009 – 2011

As CURE's first in-house designer I established the design discipline for a small software team inside a global NGO focused on fundraising for a network of charitable children's hospitals.

HACC   **Adjunct Professor** • 2008 – 2012

Taught non-credit technology courses to continuing education students.

Contract Designer   **Self-employed** • 2004 – 2016

Provided contract design and development services for NGOs, startups, and agencies.

Projects

HospitalRun
Co-founder • 2012 – 2019

Open source, offline first, HMS/EMR for charitable hospitals in under-resourced areas.

RemoteJobs.io
Founder • 2012 – 2016

Job board and resume hosting site for remote job seekers. Aquired by LiftUX in 2016.

DevTees.com
Founder • 2012 – Present

Kickstarted a line of t-shirts for web developers. Shirt design and Shopify design/dev.

Education

BS Communications   **Liberty University** • 2000 – 2004
